PVC TRANSPARENT SHEET

CROSS FLOW INDIA

PVC Strip and Sheet

CROSS FLOW is proud to offer a wide variety of high quality PVC strip curtains products, manufactured from completely virgin compounds. These products have been tested and certified to meet all relevant federal and international standards and regulations. Available in widths from 200mm & 300mm Thicknesses from 1mm to 5mm.

Standard Smooth

Transparent, flexible, economical smooth PVC for indoor and outdoor applications from 150°F to 0°F.

Made from compounds that meet federal and international requirements for incidental contact with meat, poultry, or dairy products.

Low Temp Smooth

Softer, more flexible, transparent smooth PVC designed to resist cracking and breaking in freezer applications to -40 °F. Made

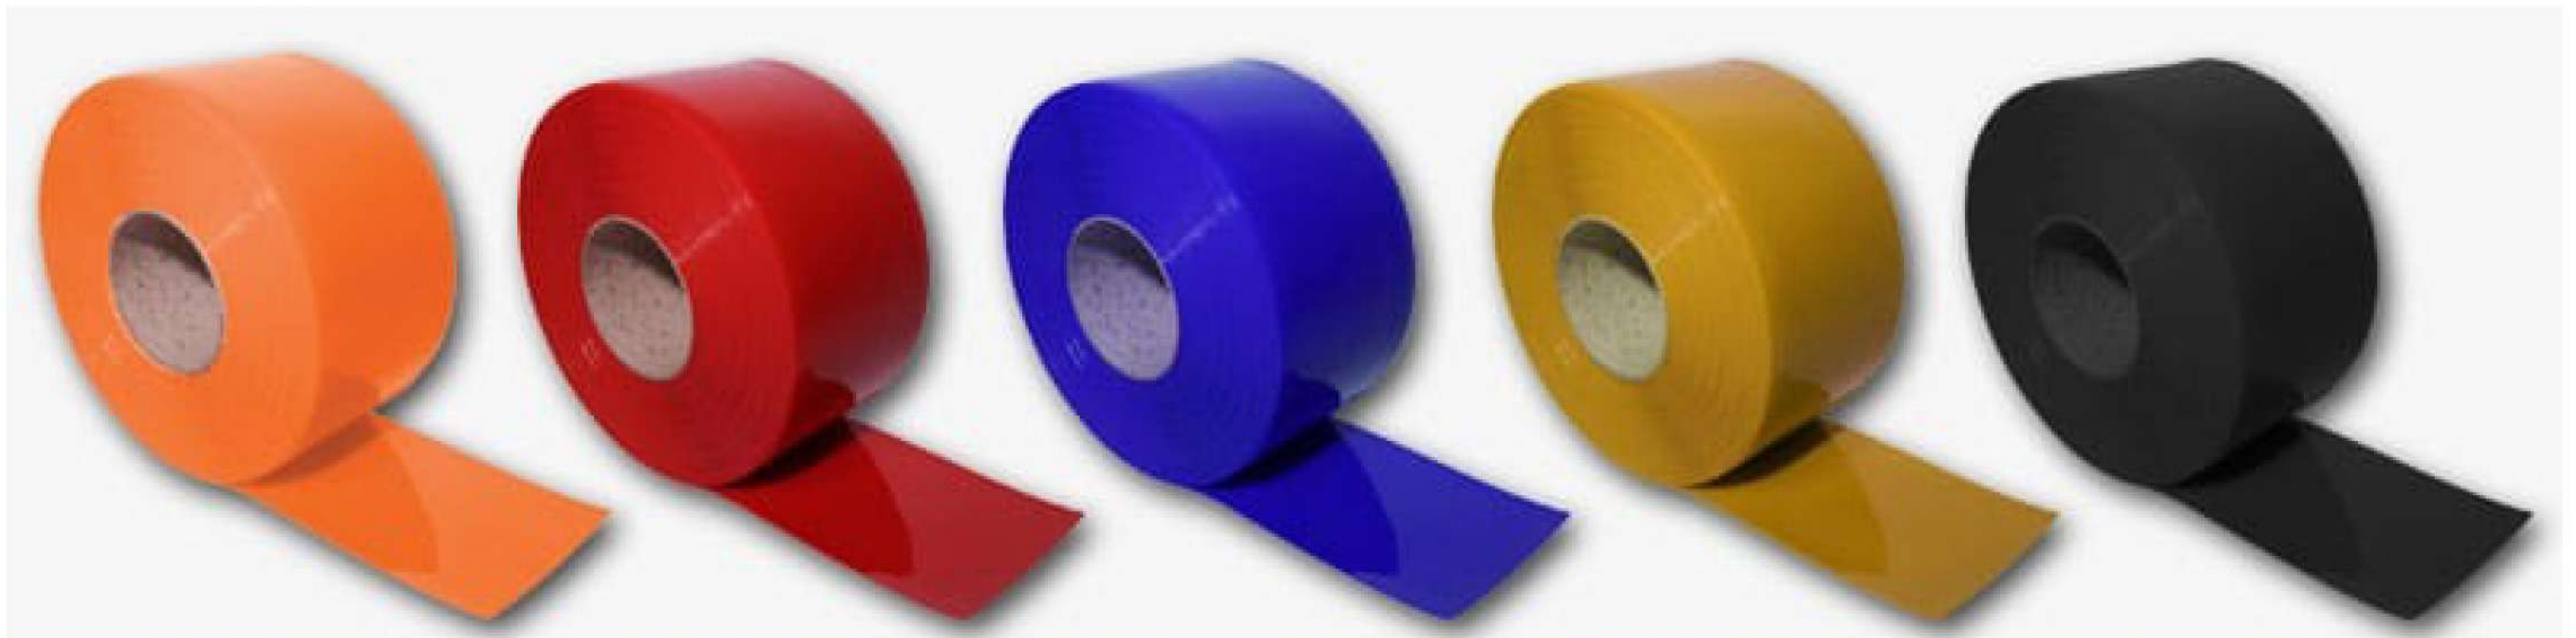

from compounds that meet federal and international requirements for incidental contact with meat, poultry, or dairy products.

Low Temp Ribbed

Durable ribbed material reduces scratching from loads passing through opening. designed for heavy-duty, high-traffic

applications in environments & made from compounds that meet federal requirements for use in food facilities.
